

ITMA 2023 NONWOVENS FORUM (10 JUNE 2023)

CALL FOR PAPERS

Nonwoven materials open a world of innovative possibilities for many types of industries. The specific functions of nonwovens such as absorbency, strength, flame retardancy, bacterial barriers and many more make them fabrics of choice since they are versatile and cost effective.

The forum shares useful insights, especially for participants looking to upgrade to nonwovens production or interested to explore more on the latest innovation & technologies of the nonwovens industry.

CALL FOR PAPERS

Open to all ITMA 2023 exhibitors.

The topics will focus on the following:

- Impact of nonwoven machinery and processes
- How new or emerging nonwoven applications transform the world of textiles
- Latest trends and innovations driving sustainability in the nonwoven industry

Presenters are highly encouraged to submit experiment results, data or evidence to support their content or quantifiable results to justify their submitted process. Submissions should emphasise innovations, provide solutions and perspectives on the above-mentioned topics.

Please upload your paper in PDF format with a maximum of 500 words and not exceeding a file size of 10 MB. If you wish to upload a supplementary document, it must be in PDF format and should not exceed 10MB in size. Kindly note that commercial presentations will be rejected.

You may click [here](#) to submit your paper. Please refer to the [Submission Guide](#) provided should you need more clarifications. **The submission deadline has been extended to 31 January 2023.**

You will be required to register for an account separately at the events submission platform. Only the nominated person in-charge of events from the collaborator module, **OR** the main corresponding person, will have access to the events submission platform. Please note that it could take up to 3 working days to activate your account from the date of your registration.
